The Battle of the Hymn-Books.

Burletsh's New York Letter to Boston Journal.

Music in our churches is the almost universal cause of discord. The trouble for a long while was attributed to choirs, to the organ at the vestibule end of the church, to the want of congregational singing. Choirs have been dismissed; organs put at the pulpit end; precentors introduced, yet the old trouble re-

One minister quarreled with the trustees about whether one woman or another woman should play the organ. The trouble culminated in rending the congregation, the resignation of the trustees, the foreclosure of the mortgage, the dismissal of the minister, the bankruptcy and ruin of the church, and the sale of the house.

Another congregation has rival candidates for the office of precentor. Both are working like Democrata at a primary to get the position. So far neither can get the vote of the music committee. When it gets beyond that it will probably rend the church,

The most extraordinary thing in the line of church music has occurred very recently in a popular up-town church. It is really a battle of hymn books. Hymn books are many and their friends are realous and persistent. In this congregation there is a leading publish-er who has a hymn book under his control. It bears the name of a Boston pastor This book has been introduced into the congregation to the disgust of the pastor. He has naturally exerted himself to get the book displaced. The publisher is a deacon in the church, a man of wealth and influence, and has been a great power in his denomination. He has naturally stirred himself to have the book retained. The pastor cut the Hordian knot of antagonism in a very summary manner last week. A telegram summoned the deacon to meet the paster at a given hour at his study. He found the minister arrayed to go out, who declined any conference, but pointed to a paper lying on the desk which he re quested the deacon to sign. It was a request to the church to accept the deacon's resignation. "Perhaps you would like the resignation of my membership also," suggested the official "As you please," said the paster, "I can get along with a church member where I can't get along with a deacon" The signature was attached to the paper and the church has one deacon less to day. Whether this will restore harmoney is a question.

### An Undeniable Truth.

You deserve to suffer, and if you lead a miserable unsatisfactory life in this beautiful world, it is entirely your own fault and there is only one excuse for you—your unreasonable prejudice and akepticism, which has killed thousands. Personal knowledge and common sense reasoning will soon show you that Green's August Flower will cure you of Liver Complaint, or Dyspepsia, with all its miserable effects, such as sick-headache, palplation of the heart, sour stomach, habitual costiveness, dizzness of the head, nervous prostration, law spirits, etc. Its sale now reaches every town on the Western Continent, and not a druggist but will tell you of its wonderful cures. You can buy a sample bottle for 10 cents. Three doses will relieve you.

THE Democrate of this county are to-day beasting that Gambrel will carry DeWitt sounty by 250 majority, and say that their efforts new are all for the purpose of keeping Mossett's majority in Macon county below those figures. This boast is based upon information they have received from DeWitt to the safe of the long of the purpose of the long of the long. You were then controlled they have received from DeWitt to the long of the long o effect that Harrold has been descried by the Democratic greenbackers, while the greenbackers of Republican antecedents are expected to stick to him. How do our Republican greenbackers like that sort of a trick? Will they allow themselves to be caughtby it?

A wone to our Republican-Prohibition friends: The Democratic-Greenbackers, who were instrumental in bringing out the prohibition candidate for senator, have descried him and gone over to the support of the Democratic candidate, Gambrel. That Mr. Harrold is to lose the votes of all the Macon county Democrate is certain. provided Democratic ingenuity can compass that result. The scheme is to divide the Republican vote between Moffett and Harrold so as to let Gambrel in. It is the same old dodge, and every man who does not want to see it succeed ought to take the only means that can possibly prevent it-vote for Modett.

### IT HAS BEEN DONK.

We have for a month past been charging that the greenback party was being run in the interest of the Democratic party, for the purpose of capturing Republican votes. The evidence now comes to us that in DeWitt county the greenback Democrats have dropped their candidate for mnator, Harrold, and are rallying to the support of Gambrel. We have known for weeks past that this game was to be attempted. and now it has become so apparent that it is no longer concealed in that county. Emisearies of the DeWitt Democracy

to-day boasting that Gambrel will carry DeWitt sounty by 250 majority, and my that their efforts new are all for the purpose of keeping Moffett's majority in Macon county below those figures. This boast is based upon information they have received from DeWitt to the effect that Harrold has been descried by the Democratic greenbackers, while the greenbackers of Republican antecedents are expected to stick to him. How do our Republican greenbackers like that sort of a trick? Will they allow themselves to be caughtby it? A WORD to our Republican-Prohibit-

ion friends: The Democratic-Greenbackers, who were instrumental in for senator, have descried him and gone over to the support of the Democratic candidate, Gambrel. That Mr. Harrold is to lose the votes of all the Macon county Democrate is certain, provided Democratic ingenuity can compass that result. The scheme is to divide the Republican vote between Moffett and Harfold so as to let Gambrel in. It is the same old dodge, and every man who does not want to see it succeed ought to take the only means that can possibly prevent it-vote for

### IT BAS BEEN DONK.

We have for a month past been charging that the greenback party was being run in the interest of the Democratic party, for the purpose of capturing Republican votes. The evidence now comes to us that in DeWitt county the greenback Democrats have dropped their candidate for mater. Harrold. and are rallying to the support of Gambrel. We have known for weeks past that this game was to be attempted, and now it has become so apparent that it is no longer consealed in that county. Emissaries of the DeWitt Democracy have been to Decatur to effect the same purpose, and no stone will be left unturned between now and election day

origin, but as they are enveloped in the mists of tradition, it is hard to tell which is the one to accept. One, and the met alcounts of tradition of the met alcounts. the most plausible one of all, is that a terrible malady, supposed to be the St. Vitue dance, afflicted the people of the Sauer and Eifel, during the lifetime of the saint, but that, through his special About Nov. 10th, where they will open the Largest and Finest Stock of intercession, vanished, and has not since appeared. In gratitude for his great kindness, a procession, in which the participants acted some feature of the disease from which they had been so miraculously freed, marched to the mionestery every year to return thanks to its Blank Books, Bibles, Albams, Autograph Albams, Pocket Books, Work Boxes, blessing. The probability of this story is founded on the fact that the St. Vitue dance scourged a large portion of Germany and the Netherlands in (I think) the fourteenth century, and it is possible that the simple mountaineers having heard of the great power of their sunt, marched to his shrine and asked his intercession in their behalf, and that in the course of time the legend had lost its accuracy, and the event was carried back to the existence of the saint himself Another theory is that the venerable Bishop, with crozier in hand, suddenly

appeared among the herders during the prevalence of a terrible plague that was destroying the cattle, and by a few words banished it forever. Since that time annual pilgrimages have been made to his shrine, and to make it a joyous one, dancing was introduced; but, as they did not wish it to be like ordinary terpsichorean movements, they introduced a pas of their own to make it, according to the assertion of a peasant, sehr elegant, and more in barmony with their hyun-like chant. Those who join in the dancing pilgrimage are popularly supposed to have the sins of a year forgiven them if they jump the entire length of the line of march, but, if they accomplish only a portion of the distance, their transgressions are remitted in pro-portion. Those who do not join can have their sins absolved by employing others to take their place, and this belief couses many persons, from a mere child to a senile old woman, to volunteer their services for a small sum, varying from ten groschen to a five franc piece -Appleton's Journal.

### The Daily Republican. The Jumping Procession of Luxen:-

mists of tradition, it is hard to tell which is the one to accept. One, and the most plausible one of all, is that a terrible malady, supposed to be the St. Vitus dance, afflicted the people of the Sauer and Eifel, during the lifetime of the saint, but that, through his snecial intercession makes the saint, but that, through his special intercession, vanished, and has not since appeared. In gratitude for his great kindness, a procession, in which the participants acted some feature of the disease from which they had been so mirroulously freed, marched to the monastery every year to return thanks to its venerable Abbot and to receive his blessing. The probability of this story is founded on the fact that the St. Vitue dance acourged a large portion of Germany and the Netherlands in (I think) the fourteent century, and it is possible that the simple mountaineers having heard of the great power of their saint, marched to his shrine and neked his intercession in their behalf, and that in the course of time the legend had lost its accuracy, and the event was carried back to the existence of the saint himself. Another theory is that the venerable

Bishop, with crozier in hand, suddenly appeared among the herders during the prevalence of a terrible plague that was destroying the cattle, and by a few words banished it forever. Since that time annual pilgrimages have been made to his shrine, and to make it a joyous one, dancing was introduced; but, as they did not wish it to be like ordinary terpsichorean movements, they introduced a pas of their own to make it, according to the assertion of a peasant, sehr elegant, and more in barmony with their hyum-like chant. Those who join in the dancing pilgrimage are popularly supposed to have the sins of a year forgiven them if they jump the entire length of the line of march, but, if they accomplish only a portion of the distance, their transgressions are remitted in pro-portion. Those who do not join can have their sins absolved by employing others to take their place, and this belief causes many persons, from a mere child to a senile old woman, to volunteer their services for a small sum, varying from ten groschen to a five-franc piece -Appleton's Journal.
